WHAT DO WE OFFER?

5 days before the start of your stay, you will receive full information about the code to open the door and a few important tips for your stay.

The apartment is designed for up to 4 people at a time, there are two separate bedrooms with two beds in each, a living room, a separate kitchen, a bathroom and a terrace overlooking the sea. In the garden there is a swimming pool, which is open all year round and is only available to guests of this complex. At the back of the garden there is a gate and a path that leads through the dunes to the next beaches of Cabopino, so getting to the beach is convenient. You walk a few minutes and you are on the beach. When returning, it is worth looking around - our eucalyptus is the tallest tree on the horizon and it is easy to find your way back.

The bedrooms are prepared for the night. Electric heaters have been installed in the rooms. There is also air conditioning in the living room. The apartment has WiFi (information with the password next to the router), a fridge, washing machine, microwave and other equipment such as glasses, plates, cutlery are available. There are also sun loungers, umbrellas, towels, an iron, a dryer and many other useful things.

I trust that you will use all the available rooms and objects, taking care of them as if they were your own, so that they can also serve the next guests. So when checking out after your stay, look around to see if everything is as you found it at the entrance.

I also believe that a holiday in the charming Artola on the beaches of Cabopino will be a beautifully spent time, that you will come back here again, because here there are not only beaches, here there are also extraordinary places waiting for you. You can't see all these places in a few days. We have been here for several years and each time there is something new, or familiar and beautiful, but seen again in a different glow of warm sun.
